

## BETAINES – AMPHOTERIC AND OTHER SURFACTANTS

Name	Physical status at 25°C	Application
Coco amido propyl betaine	Liquid	Amphoteric surfactant, good softness, cleaning, conditioning, antistatic performance
Sodium lauroylsarcosinate	Liquid	Foaming and cleansing agent for shampoo, shaving foams, corrosion inhibitor, formulating textile treatment agents
Oleyl sarcosinic acid	Liquid	
Lauryldimethylamino oxide	Liquid	Zwitterionic detergent
Sodium lauroyl 7 OE citrate	Liquid	
Lauroyl 7 OE citrate acid	Liquid	
Sodium dodecylbenzenesulphonate	Paste	Detergent, moisten, foamer, emulsifier
DEA dodecylbenzenesulphonate	Paste	Anionic surfactant
Potassium cocoate	Liquid	Natural moisturizer in formulated hand soaps, base for natural type shampoo formulations
Potassium resinate	Liquid	High wetting and foaming power
Dodecylbenzenesulphonic acid	Liquid	
Coconut diethanolamide	Liquid	Nonionic surfactants, detergent
PEG 7 glyceryl cocoate	Liquid	Emollient surfactant, foamer and skin conditioner
Coconut monoethanolamide	Flakes	Nonionic surfactants, detergent
Oleic diethanolamide	Liquid	Lubricant agent, thickening agent and wetting agent, emulsifier

# C A T I O N I C      S U R F A C T A N T S

Name	Physical status at 25°C	Application
Tallow diamine ethoxylated and quaternized	Liquid	
Tallow amine ethoxylated and quaternized (50%)	Liquid	
Cetyl trimethylammonium chloride	Liquid	Phase transfer catalyst, intermediates and disinfectants, conditioning agent, antistatic and softening agent
Coconut amine ethoxylated and quaternized	Liquid	
Benzalkonium chloride	Liquid	Disinfectant, detergent, sanitiser, emulsifier
Dimethyl stearyl amine quaternized	Liquid
